

SIR JOHN NELTHORPE SCHOOL

Headteacher: Mr R. Biglands BSc

Grammar School Road, Brigg, North Lincolnshire DN20 8AA

telephone: (01652) 656551 email: admin@nelthorpe.org.uk web: www.sirjohnnelthorpe.co.uk

Dear Applicant

Thank you for your interest in the position of Technology Technician at Sir John Nelthorpe School. This is a vital role within our school, and we are looking for a dedicated individual to join our highly regarded Art & Technology Faculty.

Sir John Nelthorpe School is a place steeped in history, yet we are firmly focused on providing a modern, high-quality education that prepares our pupils for the challenges of the future. Our Art & Technology Faculty is a cornerstone of this mission, offering pupils the chance to get hands-on with 3D Design, CDT, Textiles, and Food Technology. We take immense pride in the creative output of our pupils, and as our technician, you will be the engine room that makes this creativity possible.

We are specifically looking for someone with a high level of practical skill and a "safety-first" mindset. Whether you are a retired technology teacher looking to remain active in education, or an experienced professional from a workshop background, your expertise will be invaluable. This role is about more than just maintaining equipment; it is about ensuring our students have the best possible environment in which to learn, design, and build.

The successful candidate will be responsible for:

- Precision Support: Preparing specialised materials and resources across Key Stages 3, 4, and 5.
- Technical Mastery: Operating and maintaining workshop machinery, including circular saws, routers, and radial arm saws.
- Creative Environments: Assisting with wall displays and maintaining organized, inspiring workspaces.
- Safety & Logistics: Managing stock control and ensuring all equipment meets rigorous health and safety standards.

At Sir John Nelthorpe, we offer a supportive and collegial atmosphere. You will work alongside passionate teachers who value your technical input and rely on your expertise to deliver complex practical demonstrations. We are looking for a proactive team player—someone who sees a need and fills it, and who takes pride in the smooth running of a busy faculty.

If you have the technical "know-how" and the desire to support the next generation of designers and engineers, I encourage you to apply. We look forward to reading your application and potentially welcoming you to our team this term.

Yours sincerely

Mr R Biglands
Headteacher

RESPECT - RESILIENCE - INTEGRITY
